

# REHAL INTERNATIONAL TRANSPORTATION

PIONEERING EXCELLENCE IN FUEL LOGISTICS: A CAPABILITIES STATEMENT

## Rehal International Transportation Co.

Founded in the strategic heart of the Middle East in 2003, Rehal International Transportation swiftly ascended to the forefront of the logistics industry, specializing in the critical domain of liquid fuel and bulk cargo transport. Born from a vision to support the logistical complexities of military operations in Iraq, Rehal's journey began as a vital artery for the US Army, ensuring the seamless flow of essential resources in an environment where precision and reliability are not just valued but vital for operational success.

With a fleet that has grown to encompass hundreds of specialized tankers alongside a diverse array of heavy-duty transport vehicles, Rehal has expanded its operational footprint and deepened its commitment to excellence in every mission undertaken. This expansion reflects a quantitative increase in capacity and a qualitative enhancement of Rehal's ability to navigate the multifaceted challenges of fuel and cargo transportation across Kuwait and the larger GCC/MENA regions' demanding terrains.

## Rehal Experience

Rehal's history of supporting USG contracts in Kuwait / CENTCOM AOR is long and distinguished. Since our inception in 2003, we have transported more than 300 million tons of cargo and over 2 billion liters of fuel.

Our past performance includes projects for various customers, including ACC-RI, USTRANSCOM, DLA Energy, State Oil Marketing Organization of Iraq (SOMO), the Kuwait National Petroleum Company (KNPC), and numerous other USG contractors.

## Key Rehal Contracts

- Heavy Lift 9, Prime contractor for line haul, heavy lift, and PAX transportation services across the CENTCOM AOR, \$248M, 2023-2027
- K-BOSS Transportation Support Services, transport & logistics services in Kuwait, \$18M, 2013-2023
- KNPC Retail Fuel Distribution Kuwait, \$58M, 2007-2018
- DoD-Dept of the Army W52P1J-10-C-0062: Provided a range of fuel tankers for US Army Central Command operations in Kuwait; Final Contract Price: >\$50M; Period of Performance: Various start dates from 2013 - Present.

## Meeting USACE Requirements

### Unrivaled Expertise and Commitment

At the core of Rehal's enduring success is a management team whose expertise is broad and deep, totaling over 120 years of collective experience in logistics. This reservoir of knowledge, gained through hands-on involvement in regional fuel hauling missions, has imbued Rehal with an intimate understanding of the intricacies involved in fuel logistics, particularly in environments that are as dynamic as they are demanding.

Rehal's proficiency is not just in the movement of fuel but in the orchestration of a symphony of logistics that ensures the right fuel reaches the right place at the right time. This precision, coupled with an unwavering commitment to operational excellence, has positioned Rehal as a force multiplier in the logistics domain, fueling the success of its partners and clients with every mission accomplished.

### A Fleet Like No Other

Rehal's pride in its fleet is well-founded, with over 650 trucks and fuel tankers dedicated to fulfilling the mission requirements of DLA Energy. This fleet, predominantly comprising state-of-the-art Mercedes and Iveco trucks, is not just impressive in numbers but exemplary in readiness and reliability. Each vehicle is a testament to Rehal's commitment to maintaining the highest standards of operational efficiency, with a rigorous maintenance program ensuring an operational readiness rate that consistently exceeds 92%.

### Partnership with DLA Energy: A Testament to Excellence

Rehal's past engagements with DLA Energy have not just been contracts but a partnership forged on the anvil of shared goals and mutual respect. This relationship is underpinned by Rehal's proven track record of successfully transporting over 1.25 billion liters of fuel, a feat that underscores the capability, trust, and reliability that Rehal brings to every mission. With a history of exceeding the technical and operational requirements set forth by DLA Energy, Rehal stands ready to continue this legacy of excellence, offering unmatched value and service in the fulfillment of DLA Energy's fuel distribution mission.

## Who We Are

- A leading fuel transportation services company in Kuwait.
- Specialists in overland transportation, vehicle leasing, bulk cargo, and fuel distribution.
- Current prime contractor to the USG under HL9

## Why Choose Rehal?

- Comprehensive transportation services.
- State-of-the-art fleet and maintenance facilities.
- Decades of experience operating on US/Kuwaiti military installations
- Unmatched commitment to quality, safety, and reliability.

## Rehal Capabilities & Experience

- Expertise in contingency and sustainment operations.
- Quick ramp-up capabilities to support large contracts.
- Over 300 million tons of cargo and 2 billion liters of fuel transported.
- Projects completed for DLA Energy, State Oil Marketing Organization of Iraq (SOMO), IAP Worldwide Services, and more.
- Dedicated USG Contracting team with over two decades of experience in the region
- Robust procurement & maintenance capabilities
- Regional & global supplier network

## Rehal's Unmatched Fuel Transport Capabilities

Rehal International Transportation is at the forefront of fuel logistics, distinguished by our comprehensive suite of licenses, permits, and authorizations essential for seamless operations within Kuwait. Our unwavering adherence to Kuwaiti laws, labor standards, and regulations ensures full compliance and operational integrity, perfectly aligning with the stringent requirements of DLA Energy. Our operations, available 24/7, including weekends and holidays, are a testament to our commitment to precision and reliability. We are adept at swiftly adapting to the dynamic schedules of key loading facilities such as KNPC Shuaiba, Subhan, Ahmadi, and KAFCO, as well as DFSP locations, ensuring an uninterrupted fuel supply even during Ramadan and extreme heat conditions.

At the heart of our operations is our fleet, the largest and most meticulously maintained in Kuwait, embodying our commitment to reliability, safety, and excellence. Our truck fleet, a blend of strength and reliability, includes robust Mercedes Actros models and powerful Iveco trucks, specifically chosen for their exceptional hauling capabilities and suitability for the challenging climates of the Middle East. This strategic selection ensures our operational capacity meets and exceeds the demands of any mission, reaffirming our position as a leader in specialized fuel transport operations.

Our tanker trailers, the core of our fuel transport operations, uphold the highest standards of quality and safety, ensuring the integrity of the fuel transported. Our expansion plans include the addition of 100 state-of-the-art tankers, further enhancing our capacity to deliver excellence. Our longstanding relationships with Kuwait National Petroleum Corporation (KNPC), Kuwait Petroleum Corporation (KPC), and Kuwait Aviation Fuel Company (KAFCO) fortify our operational framework, enabling us to efficiently navigate certification processes and exceed required standards.

We extend an open invitation to DLA-Energy representatives for a site visit and fleet inspection, confident that a closer look at our operations will affirm Rehal's position as the premier fuel transporter in Kuwait. Our readiness to meet and exceed the demands of the DLA-Energy fuel delivery contract is evident in every aspect of our operations, from our state-of-the-art fleet and rigorous compliance standards to our skilled workforce and unwavering commitment to safety and reliability.

## Comprehensive Compliance:

- Strict adherence to Kuwaiti laws and DLA Energy's requirements ensures operational integrity.
- Efficient navigation of certification processes with KNPC, KPC, and KAFCO, showcasing our deep understanding of regulatory standards.

## Fleet Excellence:

- Ownership of Kuwait's largest, most reliable fleet, including advanced Mercedes Actros and Iveco trucks, tailored for the Middle East's demanding conditions.
- Proactive fleet management strategy, including scheduled maintenance every 5,000 km and rapid response to unscheduled needs, guarantees operational continuity.

## Quality and Safety:

- Commitment to the highest standards in fuel transport, with a significant fleet of trailers ensuring fuel integrity and compliance with the latest standards and regulations.
- Rigorous driver training programs and a culture of safety that prioritizes the well-being of our employees and the communities we serve, contributing to our exemplary safety record.

## Specialized Fuel Transport Operations Designed to Support US Military Missions

Rehal International Transportation excels in specialized fuel transport operations tailored for US military missions, leveraging our deep expertise and comprehensive capabilities to meet the unique demands of military logistics. Our team, fluent in English and trained in detailed regulations and operating procedures, ensures the highest standards of safety and compliance, with each driver certified for the transportation of hazardous/flammable goods.

Security is a cornerstone of our operations. Our drivers and convoy supervisors, proficient in US Government security procedures, deliver fuel safely and securely, negating the need for armed escorts. Our proactive security measures and robust reporting mechanisms ensure mission integrity by promptly addressing any suspicious activities.

At the heart of our specialized operations is our operations management, drawing on extensive experience in large-scale fuel transportation, particularly in challenging environments like Iraq. Our operations management ensures precision and reliability, from task order initiation to convoy operations and maintenance, underpinned by our tanker systems manufactured to KNPC specifications and accompanied by calibration certificates.

Our fleet, managed through cutting-edge technology and seasoned expertise, ensures reliability and readiness. Our proprietary Fleet Management System (FMS) and comprehensive Quality Control Plan ensure that every aspect of our operation adheres to the highest standards. Our robust maintenance program, focused on preventative measures and quick repairs, keeps our fleet in optimal condition.

Rehal's meticulous approach to contract compliance ensures alignment with DLA-E and other regulatory bodies' detailed requirements. Our badging capabilities, refined through extensive experience, ensure seamless access to US military installations, crucial for mission execution. Our operational security measures, from physical security enhancements to advanced tracking systems, protect USG cargo and assets, reinforcing our commitment to the highest security standards.

## Precision and Expertise:

- Extensive experience in large-scale fuel transportation, particularly in challenging environments.
- Operations management ensures precision and reliability from task order initiation to convoy operations.

## Fleet Reliability and Readiness:

- Managed through cutting-edge technology and seasoned expertise, ensuring operational efficiency.
- Robust maintenance program focused on preventative measures and quick repairs.
- Comprehensive Quality Control Plan ensures adherence to the highest quality and safety standards for all operations.

## Security and Compliance:

- Proficiency in US Government security procedures ensures safe and secure fuel delivery.
- Meticulous approach to contract compliance and seamless access to US military installations through efficient badging capabilities.
- Comprehensive operational security measures protect USG cargo and assets, ensuring the integrity of each mission.

## Demonstrated Experience with USG and Fuel Contracts

Rehal International Transportation has solidified its reputation as a prime contractor for the US government and a leading entity in fuel transportation, boasting a portfolio of significant contracts and exemplary service delivery. Our involvement in Heavy Lift 9, with a \$243M contract awarded in July 2023 for comprehensive line haul, heavy lift, and passenger services across the CENTCOM AOR, showcases our long-term dedication and ability to support US military operations with the required security, efficiency, and reliability.

Our expertise in fuel logistics is further highlighted by our successful collaborations with the Kuwait National Petroleum Company (KNPC) on contracts like LM-0022, LM-0039, and LM-0066. These engagements, involving the efficient distribution of fuel from strategic depots to various fuel stations and government facilities across Kuwait, demonstrate our capability to efficiently manage extensive fuel distribution networks.

In addition, our partnership with the Department of Defense, particularly under contract W52P1J-10-C-0062 with the Army, underlines our specialized skills in transporting a broad spectrum of fuel types across the challenging terrains of the ARCENT AOR. Our ability to provide a range of tanker types, from 36,000-liter KNPC road fuel tankers to smaller 15,000-liter retail-type tankers, illustrates our commitment to versatility and meeting the specific needs of our diverse clientele.

Our longstanding relationships with KNPC, combined with strategic collaborations with ITTExelis and the Southern Oil Marketing Organization (SOMO), reinforce our trusted position in the fuel transportation sector. With an extensive fleet of 250 fuel tankers and a proven track record in managing significant fuel movements, such as the 45M gallons in 30 days for SOMO, we have demonstrated our unparalleled ability to deliver under the most stringent conditions.

Rehal's track record as a US government contractor and fuel transporter is a testament to our operational excellence, strategic capabilities, and unwavering commitment to quality service. Backed by a robust fleet and a skilled workforce, we are poised to meet and exceed the evolving demands of our clients, affirming our leadership position in the industry.

## Robust Past Performance:

- Heavy Lift 9 - W519TC23F0350: Prime contractor for line haul, heavy lift, and PAX transportation services across the CENTCOM AOR; \$243M; OCT 23 - SEP 28.
- KNPC LM-0022: Provided 20 road fuel tankers for fuel distribution across Kuwait; \$4.5M; JUL 07 - JUN 11.
- KNPC LM-0039: Supplied 20 road fuel tankers for extensive fuel distribution in Kuwait; \$6.5M; JUL 11 - MAR 15.
- KNPC LM-0066: Delivered 34 road fuel tankers for broader fuel distribution; \$9.5M; MAR 15 - FEB 19.
- DoD-Dept of the Army W52P1J-10-C-0062: Provided a range of fuel tankers for US Army Central Command operations in Kuwait; \$50M; 2013 - 2018.
- SOMO Contracts: Managed large-scale fuel transportation with a fleet of 250 tankers
  - Contract #1 in 2006 for 45M gallons in 30-days;
  - Contract #2 from 2007 to 2010 for 43M gallons monthly.
- ITTExelis Contract 13KBOS3SC001: Prime contractor for fuel movement from KNPC to US bases; 2011 - 2016
